QUICK OWNER HANDBOOK

Using the Vistar Cabs website

A plain-language guide to finding services, planning a trip, sending an enquiry and checking what happens next.

Made for the Vistar Cabs owner
Short, practical instructions. Follow the steps on screen; no coding is needed for the admin tasks in this guide.

Inside this guide

- Find the right city, route, airport or service page
- Use the trip enquiry form on a phone or computer
- Send the prepared WhatsApp message and confirm the trip
- Understand what website content does and does not promise

Website: vistarcabs.com
Admin workspace: vistarcabs.com/vistar-console

1. Start on the right page

Open **vistarcabs.com**. Use the main menu or links on the page to choose the closest match for your trip. Each page gives local details and a route to enquire.

If your trip is...	Open...	Useful details to have ready
Within a city	That city page	Pickup and drop addresses, stops, waiting time
Between cities	The route page, or Outstation in the enquiry form	Start and end city, one-way or return, date, passengers
To or from an airport	Airport transfers or the airport page	Airport name, pickup/drop direction, flight time, terminal
A place visit	City or destination guide	Place names in visit order, preferred return time
A business trip	Corporate service or the enquiry form	Company, passenger count, route and timing

Tip: use the full pickup and drop address. A locality name alone may not be enough to identify the correct gate or meeting point.

2. Send a trip enquiry

The trip form records a request and prepares a WhatsApp message. It is an enquiry, not an instant booking. Complete both parts: submit the form, then send the message in WhatsApp.

On a phone

1. Open the closest city, airport or route page. Find the trip enquiry form. You can also use the enquiry form from the home page.
2. Choose the service type that best fits: Outstation, Airport, Hourly or Corporate.
3. Enter your name and mobile number. Use a number where the team can call or message you.
4. Enter the pickup and destination. Add the exact locality, street, building or meeting point.
5. Choose the travel date and pickup time. For an airport trip, add flight number and terminal if the form asks.
6. Choose one-way, return or the relevant trip option. Add return timing, stops, passenger/luggage needs or notes when requested.
7. Review the details, then tap the button to save and open WhatsApp.
8. WhatsApp opens with a prepared message. Check it, then press **Send**. Until you press Send, the message has not been delivered to the team.

If the website says the enquiry could not be saved, do not assume it reached Vistar Cabs. Contact the team directly and report the message shown on screen.

3. Confirm the journey directly

After sending, wait for a reply from Vistar Cabs. Before you make plans that depend on the cab, confirm the details below directly with the team.

Confirm	What to ask or check
Availability	Is a vehicle available for this date and pickup time?
Vehicle and passengers	Vehicle type, number of passengers and luggage fit
Price	Complete fare and what it includes, such as tolls, parking or waiting
Pickup	Exact pickup/airport meeting point and driver contact arrangement
Trip plan	Stops, return date/time, duration and any overnight plan
Terms	Payment, cancellation and extra waiting/stop arrangements

A form submission or a WhatsApp draft is not a confirmed cab booking. Treat the trip as confirmed only after the team replies and agrees the trip details.

4. Read city and destination information

City pages can include service areas, airport or railway connections, nearby tourist places, estimated road distances and links to destination guides. Use distances as a first planning reference; the exact trip changes with your pickup point, route, traffic and road conditions.

- **Tourist places:** check current opening hours, entry rules and access with the venue or authority.
- **Temples and pilgrimage stops:** confirm darshan timings and local restrictions before travel.
- **Vineyards, forts, caves and hill routes:** ask about reservations, road access and walking time.
- **Airport and station transfers:** provide flight/train timing and the address for the other end of the trip.

Cab transport does not include venue tickets or guarantee entry, reservations or a particular visiting slot. Ask the venue for those arrangements.

5. Contact and mobile use

On a phone, the page stacks information into a single column. Scroll to the enquiry form or use the contact options shown on the site. Tap a phone link to call; use the WhatsApp contact link to open a chat.

1. Check that the phone number or WhatsApp chat is the official Vistar Cabs contact shown on vistarcabs.com.

2. When messaging, include your name, trip date, pickup, destination and whether you need a return.

3. Do not send payment card details, passwords or identity documents in an enquiry message.

If something looks wrong

What you see	What to do
Form will not submit	Check required fields and mobile number; try again. If it still fails, call or message the official contact.
WhatsApp did not open	Use the WhatsApp contact link or call. A failed save means the request may not be recorded.
A page looks old	Refresh the page and check the date. Send the page link and a screenshot to the site owner.
Need a different page or feature	Tell the website owner what content or behavior is needed. Some changes require a website code update and deployment.
